HEADLINE: BIG DOPE BUST

AP DENVER - Wirephoto. Artist/Cartoonist Jeff Leedy (right) is seen here taking umbrage as Animator Dave Holman asserts that no further changes can be made in the animation since System IV™ has taken control of the television set and removed all of Computer Image to a choice location now under development in the Twilight Zone. As Holman brazenly attempted to sell Leedy a mountain subdivision lot, Leedy revealed himself to be an intrepid Field Agent from the Bureau of Caricature, Cartoons, and Comics and arrested Holman on charges including mendacious animation, flagrant punnery, public recitation of limericks and third-degree risibility. Extradition proceedings have begun to return Holman from the Twilight Zone. -30-
